

Jacob Z. Eliason

Data scientist and Master's candidate with expertise in statistical analysis, deep learning, and cloud computing. Has a background in survey research and methodology. Holds a Secret level clearance. Eager to solve hard problems.

Education

present
|
Sep
2022

M.Sc. Statistics

The London School of Economics and Political Science

📍 London, UK

- Modules: Statistical Inference, Generalized Linear Modeling, Bayesian Machine Learning, Distributed Computing, Deep Learning, Dissertation
- Dissertation: [Estimating the causal effect of Germany's 2021 nuclear power plant closures on electricity generation using Gaussian process regression](#)

Dec
2019
|
Jan
2016

B.S. Statistics

Brigham Young University

📍 Provo, UT, USA

- Minors: Mathematics, Political Science

Industry Experience

Aug
2022
|
Feb
2022

Statistician

DevTech Systems, Inc.

📍 Arlington, VA, USA

- Staffed on DevTech's [Analytics, Data, Visualization, and Information Services \(ADVISE\) project](#) as member of the Privacy and Risk Analysis team within [USAID Data Services](#) in USAID's Bureau of Management, Office of the Chief Information Officer
- Used R to apply statistical disclosure limitation methods to agency data assets to satisfy k-anonymity and reduce risk

Feb
2022
|
Sep
2020

Mathematical Statistician

United States Census Bureau

📍 Washington, DC, USA

- Wrote and edited programs in SAS for production work on the [Survey of Income and Program Participation](#). Responsibilities include sampling, weighting, and variance estimation. Produced estimates and updated text for the [Source and Accuracy statement](#) for the calendar year 2020 data release
- Reviewed Census publications which reference SIPP data for adherence to [quality standards](#)

Aug
2020
|
Jan
2020

Data Analyst

Y2 Analytics

📍 Salt Lake City, UT, USA

- Conducted survey research projects for [corporate and municipal government clients](#) from start to finish: programmed questionnaires in Qualtrics, cleaned raw data using R, analyzed relationships using statistical models, wrote final deliverables

Aug
2019
|
May
2019

Data Analyst Intern

Y2 Analytics

📍 Washington, DC, USA

- Contributed R code to company codebase for function tools which are still used years later by 10+ analysts

Skills

Programming

- Languages: R, Python, SQL, SAS, Bash (Unix Shell)
- Version Control: Git, GitHub
- Testing: testthat

Statistical Analysis and Machine Learning

- Theory: Probability and inference, hypothesis testing, causal inference and experiment design
- Application: Regression, classification, clustering, Bayesian methods

Artificial Intelligence

- Deep Learning
 - Frameworks: TensorFlow
 - Architectures: convolutional neural network, recurrent neural network, autoencoder, seq2seq, transformer, GAN
- Example work: U-Net for image segmentation [here](#) and [here](#)

Data Infrastructure

- Big Data: PySpark, HDFS
- Cloud Computing: Google Cloud Platform
- Database Systems: DuckDB
- Cleaning: pandas, numpy, dplyr, tidyr, data.table
- Visualization: R Shiny, Tableau, ggplot2, matplotlib

Survey Research

- Methodology: sampling, weighting, variance estimation, conjoint analysis
- Questionnaires: Qualtrics

This document was made using the R packages [datadrivencv](#) and [pagedown](#). The source code is available on [my Github](#).

Last updated on 2023-06-15.
